PHEV

BYD

LIKE NO OTHER.

Some vehicles occupy space. The Ti 7 commands it. Every surface has been sculpted with intent, from the bold, upright stance that signals presence before a word is spoken, to the clean horizontal lines that stretch its silhouette into something undeniably modern. The monochrome alloys. The panoramic roof that opens the sky. The LED signature that makes it unmistakable at any hour.

EXTERIOR DESIGN

Defined proportions and a purposefully structured silhouette establish the TI 7's commanding presence. Wide, planted, and upright, it's a stance that doesn't need to announce itself. Sharp horizontal lines give the profile weight without heaviness. At the front, a full width LED light bar stretches across the fascia, clean and deliberate. The roof rack, underbody protection, and 20-inch monochrome alloys aren't styling choices, they're functional details that say exactly what this vehicle is built for. Every element has a reason to be there.

Exterior Colors

STAR & MOON SILVER

TITANIUM METALLIC GRAY

SUNRISE GOLD

ATLANTIS GREY

OBSIDIAN BLACK

JUNGLE GREEN

EMERALD GREEN

The TI 7's cabin is built around two things: clarity and control. A 15.6-inch center touchscreen anchors the fascia, clean and flush with the surface. Directly ahead of the driver, a 10.25-inch digital dashboard keeps everything readable at a glance. No clutter. No excess. Just a well-considered space that puts the right information exactly where you need it.

VENTILATED.HEATED. MASSAGED.

Leather ventilation and massage come as standard across the front and second row, not as optional extras. Every seat is designed to keep every occupant comfortable, regardless of how long the journey or how warm the day.

PERFORMANCE

BUILT TO MOVE & BUILT TO LAST.

The Ti 7 PHEV pairs a 1.5L turbocharged engine with an electric motor to deliver performance that doesn't ask you to compromise. All-wheel drive keeps power planted. The numbers speak clearly, but it's the way the Ti 7 delivers them that sets it apart.

1.5L
Turbo Engine

483 HP
Horsepower

5.7sec
0 – 100 km/h

AWD
All-Wheel Drive

620 Nm
Torque

710 km
Combined Range

DRIVE MODES

FIVE WAYS TO DRIVE THE TI 7.

The Ti 7 doesn't ask you to adapt to the road. Its five drive modes handle that. From daily commutes to demanding terrain, each mode adjusts the vehicle's response, so you always have the right setup for the moment.

Normal

Sport

Eco

Creep

U-Turn

Intelligent Suspension DiSus-C BYD Intelligent Body Control System

DiSus-C reads the road continuously and adjusts the suspension in real time, before you feel anything. Smooth when the road is calm. Controlled when it isn't.

Dual Motor Platform DM-P

Dual Motor All-Wheel Drive

A turbocharged engine paired with a high-output electric motor driving all four wheels. 483 hp, 620 Nm, 0-100 in 5.7 seconds, with a 710 km combined range. Power and efficiency, built into the same platform.

SPECIFICATIONS BOTH TRIMS

PREMIUM

Performance

Engine Size: 1.5L turbo
Drive Type: All Wheel Drive
